

*Over the last few months at the office we have spoken many times about Christmas cards - where to get them, how much to spend, what should they say, who is going to see and read them.*

*Ultimately, we decided that because at the end of every year the cards end up in the garbage and are forgotten, we really wanted to do something more lasting.*

*Something that will help someone.*

*All of us at CANSAFE are blessed with relatively good health and physical well-being. We talk about it all the time. This also means, doing what we do, we know that there are many, many people out there not so blessed.*

*For these reasons, this year we will be making a cash donation to Threads of Life in lieu of Christmas cards*

*This is an organization set up to help families who are directly affected by a workplace incident. These funds help with all the stuff that WCB and our medical system can't.*

*If you ever have any questions on anything we do, please give me a call! If you have any questions about this organization, please check out this link: <https://threadsoflife.ca>*
